

OTHER SIGNS

STOP SIGNS AND/OR ROUTE NUMBER SIGNS:

Contact the Virginia Department of Transportation (VDOT), 540-535-1818.

SLOW, CHILDREN AT PLAY:

If located on a secondary road (i.e., subdivision, etc.) it will be necessary to send a written request to John Riley, County Administrator. The request shall include what road the sign shall be posted on and the where the sign will be located on this road. This request then goes to the board of supervisors for a recommendation. If approved, a resolution is forwarded to VDOT. VDOT will then view the road for the appropriate location for the sign installation. However, the final determination for the need for the sign lies with VDOT.

If located on a private, non-state maintained road it will not be necessary to go through this procedure. You may install the sign as needed.
